

Slip Joint Plier

RH-1190

- Constructed from durable & high-quality drop-forged carbon steel material for better performance and longer life time
- Chrome plated finish provides durability and protection from abrasion and corrosion
- PVC coated handle & non-slip grips provide comfort and control without adding bulk
- Nut and bolt fastener allows fine tuning of operating tension
- Precision-machined jaws for maximum gripping strength
- Variable size jaws are a flexible solution for most household jobs
- These pliers meet or exceed ANSI Standard specification
