

## Hack Saw Blade

# RH-3800

- HSS Bi-metal construction allows blades to bend and flex without breaking
- Strong steel body for being flexible and safe and long life
- High-speed steel teeth for reducing friction and improving cutting performance
- Fracture resistant and extended life, ideal for steel, aluminum, plastic and other hard materials
- Vacuum heat treating creates harder edges for faster and easier cuts
- 18 teeth per inch

**300mm 18TPI**  

Model	RH-3800
Blade Size	300mm/12inches
TPI	18
Material	HSS Bi-metal
Supplied in	100pcs in Ronix color box
