

Hydraulic Bottle Jack

RH-4906

- Drop-forged alloyed steel construction for reliable strength; welded inside and out to ensure leak-free performance
- Strong safety bar keeps jack from lowering once it has been raised to maximum height
- Hydraulic bottle jack designed for heavy-duty industrial use
- Serrated, heat-treated saddle provides generous lifting area and secures grip
- Advanced hydraulic system for maximum efficiency and performance
- Heat-treated and resistant screw for height adjustment
- Effortless air operation greatly reduces operator fatigue and speeds up the efficiency of garage work
- A wide, rugged base provides stability and strength; all models critical stress points are reinforced for added durability and dependability
- New painted housing which is oil, grease and dirt resistant for easy clean-up

Model	RH-4906
Capacity	20 Ton
Min Height	235mm
Adjustable Height	60mm
Lifting Height	150mm
Net Weight	8.6kg
Supplied in	Ronix color box
