

## Air Inflation Gun

# RH-6801

- Easy to use when connected to an air compressor, combines 3 tools in one compact design—an inflation gun, chuck and gauge
- The flexible hose come in handy to maneuver in tight spots and hard to get tire points
- Easy to control with a large, readable gauge-63mm in diameter-that measures air pressure
- The inflation gun features a side relief valve for bleeding off air and reducing pressure in over-inflated tires, helping you achieve proper inflation
- Zinc alloy chuck type with clip
- The inflation gun trigger can control the airflow into the tire easily
- Rubber gauge protection for more durability
- Tire air pressure can be accurately checked with the attached PSI/BAR gauge
- Clamping end allows the inflation of most tire tpest
- Ideal for passenger cars, trucks, motorcycles, and bicycles

Model	RH-6801
Gauge Diameter	63mm
Scale	0-12bar/0-170psi
Rated Air Pressure	100 Psi
Max Pressure	115 Psi
Supplied in	Blister card
Includes	Japanese type 20 PF air plug, Open nut & nipple
